

with Renew, it's all **up to you**

- Select from a vast palette of styles, woods and finishes,
- Add new elements and cabinets to your creation,
- Retain things you like, such as flooring or countertops,
- Avoid major costs like new plumbing or electrical,
- Remodel quicker with less hassle and disruption,
- Get the new look you want at lower total cost.

REMODEL ~or~ Renew

it's up to you...

remodel, or **Renew**?

It's not an easy question. If it's time to give your kitchen a fresh new look, there's nothing better than a full remodel. You'll have the total freedom to reimagine your space and create the kitchen of your dreams. But if you're happy with the basic configuration of your kitchen, there's a new option to consider:

Renew cabinet refacing by Showplace.

Renew gives you a vast palette of wood, style and finish choices, just like a full remodel. But the Renew refacing process lets you retain your existing cabinets, while giving them a fresh new face. This means your project will be completed quicker, with lower impact on your life. Renew also gives you the unique freedom to add new elements to your creation, and uses top-quality Showplace components.

So if a new kitchen is in your plans, you now have new options to consider. You can remodel, or you can Renew. It may not be an easy decision... but with Showplace, there's no wrong answer.

the kitchen before Renew

Renew before & after

This busy family home was given new life with Showplace Renew. Most of the existing cabinet boxes were retained, refaced with new doors and hardwood veneers on frames and exposed ends. Handsome raised-panel maple doors in the handcrafted Showplace Vintage finish are a dramatic update from the previous, very dated look. Showplace Renew also offers the unique opportunity to add entirely new elements to the creation. In this home, the elegant wood hood above the range is new, as are the island and refrigerator cabinets. The creativity was also extended into other rooms, with a coordinating hutch in the dining room, and a small wet bar in the family room (not shown). *The full range of Showplace cabinetry makes such creative continuity possible.*
